Registering Embryo Calves with the American Guernsey Association

New Guernsey Owners

- Visit www.usguernsey.com to learn about membership with the American Guernsey Association. Membership is not required to register calves, but will reduce your registration fees!
- Calf registration can be done online at www.usguernsey.com or using paper forms - contact the office if you desire paper forms.
- It is recommended to contact AGA prior to registration to obtain an owner number.

Requirements of registration

- All donor dams MUST be DNA tested. For embryos made after May 2017, donor dams must have been genomic tested. Be sure to ask the consignor about the dam's DNA status before submitting registrations.
- As with any calf registration, you must have the complete registration number and name of both the sire and dam of the calf.
- You must specify who the owner is of each calf registered.
- The AGA does not require any veterinary paperwork to be submitted before registration; although AGA reserves the right to request paperwork if deemed necessary.

Foreign Registration

Each country association has its own rules for embryo registration. Buyers should check with their respective association to see what paperwork and DNA requirements need met. Foreign buyers without a home association could be eligible for AGA registration. Contact the office directly to inquire. AGA will not register calves for buyers with a Guernsey registration association within their country.
